SINCE 1913

# Vertical Lineshaft Turbine Pumps

Open Line-Shaft  
Threaded Column

**KF-KV**

Capacities: .....@ max flow up to 200 m<sup>3</sup>/hr  
Head: .....@ zero flow up to 380 meter  
Horsepower: .....Up to 180 hp  
Drives: .....Gear Drive or V or F Ropes with Horizontal Electric Motor

**KAG-KEL**

Capacities: .....@ max flow up to 600 m<sup>3</sup>/hr  
Head: .....@ zero flow up to 460 meter  
Horsepower: .....Up to 600 hp  
Drives: .....Gear Drive or Vertical Electric Motor

Open Line-Shaft  
Flanged Column

**SF-SV**

Capacities: .....@ max flow up to 160 m<sup>3</sup>/hr  
Head: .....@ zero flow up to 450 meter  
Horsepower: .....Up to 160 hp  
Drives: .....Gear Drive or V or F Ropes with Horizontal Electric Motor

SINCE 1913

# Submersible Electric Pumps & Motors

## 4" Submersible Pumps Series for 4" wells EN4L, EN4S, EN4P

- Delivery up to 22 m<sup>3</sup>/h. • Head up to 470 m.
- Rated motor power from 0.37 to 7.5 kW.

## 6" Submersible Pumps Series for 6" wells EN6-S, EN6-SH, EN6

- Delivery up to 80 m<sup>3</sup>/h. • Head up to 800 m.
- Rated motor power from 1.5 to 63 kW.

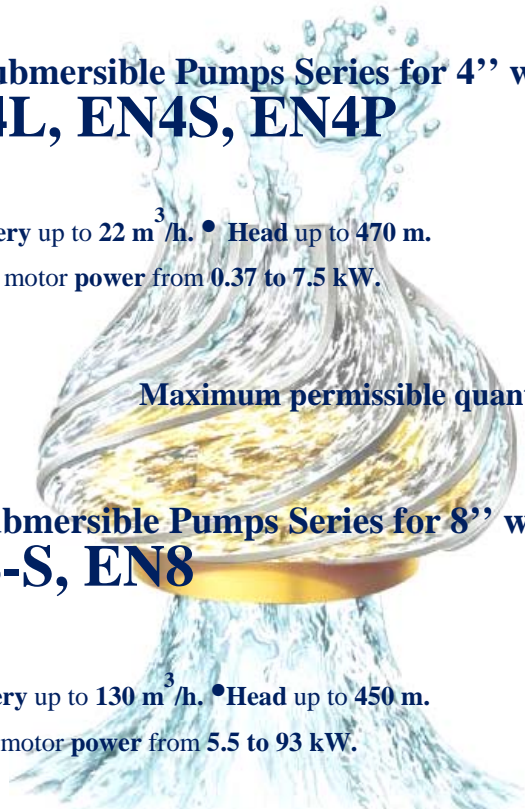

Maximum permissible quantity of suspended sand: 250 g/m<sup>3</sup>.

## 8" Submersible Pumps Series for 8" wells EN8-S, EN8

- Delivery up to 130 m<sup>3</sup>/h. • Head up to 450 m.
- Rated motor power from 5.5 to 93 kW.

## 10" Submersible Pumps Series for 10" wells EN10-S

- Delivery up to 280 m<sup>3</sup>/h. • Head up to 450 m.
- Rated motor power from 7.5 to 190 kW.
